

IMPLEMENTATION OF A **SUSTAINABLE NOOS SOURCING STRATEGY** WITH **12% SAVINGS ON IMPORT DUTIES** FOR A FRENCH E-COMMERCE BRAND

The Problem

- Dependency on one supplier in China
- Lack of capacities, supplier too small
- 12% import duties on goods
- Limited fabric supply
- High price levels for NOOS product category

The Solution

- Add new supplier to portfolio
- Choose suitable sourcing location for product category
- Find right supplier in the matching size
- Use the advantage of local supply chains
- Duty free benefits due to Generalised Scheme of Preferences (GSP)

The Results

- Pakistan as new sourcing locations
- Saving 12% import duties
- Producing with a suitable partner for NOOS products
- High quality organic cotton supply
- Better price levels and shorter lead times
